

please reject the NAB's petition 04-160 as im paying for a private service to provide my weather and traffic reports to me along with 100 other channels of music and news that i cant get from am or fm radio anymore....they should clean up their act and provide the service that the consumer needs...if they did this then we wouldnt of had to go to xm radio and pay for the services we want and need...thanks for listening to my belief.....thanks Tom Coriell 314-352-2504 3618 Connecticut St. St. Louis,Mo. 63116
